A lot of people are complaining that their medication that was once covered by AZV is now costing them an arm and a leg, Due to the covid even AZV had to cut back to survive. The sad part about this is that most people don't have their regular income, so some of these extra cost will add much more stress in their already stressful situations. Please take your health seriously, especially in these times.

Alan Howell " Everything is on the Up & Up"

Even with all the fight that Alan Howell received, he keeps pushing to keep all his promises made, because he knows how important a promise is for anyone one. He promised to give the field attention, and made it happen, But as soon as his party started his campaign, rumors started and his party was attacked, we contacted him to see whats really going on, as he is a San Nicolas candidate, he assured us that everything is on the up and up, and if there was any irregularity he would have reported it himself. " Only when your a treat they try to attack you " God got my Back, and I have my people's back.
